Masai School , Bengaluru

SOFT SKILLS

Organizational Skills

Leadership , Communication, Collaboration, Critical Thinking

WORK EXPERIENCE

Clayfin Technologies

Java Backend Developer

May 2023 - September 2023

- Led end-to-end development of new APIs as a Java Backend Developer at Clayfin Technologies.
- Utilized Spring and Spring Boot frameworks for API development, crafting APIs and engineering intricate business logic while aligning responses meticulously with documentation standards.
- Optimized existing codebases, resulting in improved response times and enhanced system efficiency.
- Successfully integrated a third-party API, eliminating costly premium subscriptions and strengthening the project's data foundation.
- Role expanded expertise in Java and Spring technologies, including hands-on experience with MS SQL and Oracle databases for deepened database management skills.
- Acquired proficiencies in Spring Batch and the ELK stack, enhancing the corporate skill set.

PROJECTS

E-COMMERCE PLATFORM REST API

IndividualProject | Execution Timeline: 1 Week

REST API for an ECommerce platform that offers customers a simple & user friendly shopping experience.
